Established in 1963, D&B's Data Universal Numbering System, commonly known as the D-U-N-S Number, is a unique global business identification system that identifies, validates and links to more than 225 million businesses worldwide. The D&B D-U-N-S Number is a nine-digit non-indicative numbering sequence and is assigned at the lowest organizational level, i.e. business locations with a unique, separate and distinct operation.
